

DISCUSSION QUESTIONS

INTRODUCTION TO THE BOOK

Dr. Hogan writes about the cultural hurricane as a tremendous shift in our relationships from in-person connections to asynchronous social interactions. He reminds us that there are both gifts and challenges in these recent changes.

1. How is life different today compared with when you were a child?

2. How have smartphones and social media impacted (positively and negatively) your relationships?

3. In what ways has the cultural hurricane of technology been a gift and a challenge for you and for your family?
