Models for Using *Echoes of Faith Emmaus Edition* In Your Parish

Echoes of Faith Emmaus Edition allows catechetical leaders to focus on developing relationships while enabling catechists to engage with content in a time, location, and method best suited for them. Below are some models for integrating digital formation with in-person gatherings, creating networks of faith-filled catechists.

COMMUNITY KICKOFF

INVITE those who are beginning *Echoes of Faith Emmaus Edition* to gather for an introduction to the platform and one another. Complete a module together, allowing catechists to become familiar with the learning design and their companions on the journey.

CHECK-INS

As catechists progress through the modules at their own pace, schedule opportunities for catechists to pray, discuss, and share how they are **DISCOVERING** Jesus through the segments. Catechists can focus on developing faith-based relationships rather than grasping new content.

COHORTS

Identify and connect catechists who are working on the same modules, encouraging them to **DIALOGUE** both online and in person. Partnering with other parishes or the diocese can extend these connections across parishes, regions, or the diocese.

UNITED IN PRAYER

Incorporate prayer from *Echoes of Faith* into your already existing gathered meetings. Ask catechists to select and facilitate their favorite prayer segment, sharing how they have come to **RECOGNIZE** Christ. This experience of shared prayer may also encourage catechists to begin their formation with *Echoes of Faith*.

CALLED TO WITNESS

Invite catechists to **SHARE** their learning and reflections with the larger community at gathered experiences, or through bulletins, social media posts, or newsletters.
